## Designing atmosphere for the most magical moments of the year

When it's cold and snowy outside, there's nothing nicer than a place that exudes warmth and comfort.

And that's not only a question of the temperature in the room, but also of the atmosphere. It's often the little things that make a guest feel at home. Each of our napkins, table runners and candles is

the result of practical know-how and experience – but above all: of love with detail. The delight to create a magnificent atmosphere by means of colours and shapes, light and design. It's this interaction which makes sure that people can sit back and relax even before the first course. And since tastes are different, Duni offers different lines

of design that are sure to strike a chord with an array of target groups. From the magnificent to the puristic, from the idyllic to the magical. That's our part in keeping your guests satisfied. And satisfied guests come over again and again and again. Even on frosty winter days.
