Design With Respect For Nature

Finnish craftsmanship has always been appreciated for its beauty and uniqueness. The aesthetics and naturalness of Elicia products bring something new to every mealtime. Their versatility makes them ideal for everyday use and special occasions alike.

COCKTAIL PLATE

The Elicia and Era lines stem from strong craftsmanship and unshakeable courage to design something new. In their designs, Panu and Eero Remes honour wood, designing their products to pay homage to its naturalness and primitive strength.

Thanks to their innovativeness and modern design, the products have won various awards, most recently the Best of Finnish Design contest organised by Fazer in 2004.

Atmosphere Is Made Up Of Small Details

Elicia is a combination of natural beauty and modern design. Natural materials complement the décor of your home, radiating warmth and softness around them.
